Readers Kept In The Know

Oil and gas is a fast-paced business that literally moves at real-time speed, compressing decision-making cycle times and making information the most valuable commodity in any company's portfolio. *The American Oil & Gas Reporter* serves as the Official Publication for 28 state and regional associations of independent producers and operators. As such, *AOGR* is uniquely positioned to deliver the latest news and analysis of the federal, state and local legislative and regulatory matters that shape the economics of all upstream operations. Each issue provides valuable insight into the business of oil and gas, with news from association executives and committees, views from Wall Street analysts, and field success stories from industry peers keeping readers in the know.

The American Oil & Gas Reporter Serves The Following Associations As Official Publication:

Arkansas Independent Producers & Royalty Owners

California Independent Petroleum Association

Colorado Oil & Gas Association

Eastern Kansas Oil & Gas Association

Illinois Oil & Gas Association

Independent Oil & Gas Association of New York

Independent Oil & Gas Association of West Virginia

Independent Oil Producers Association, Tri-State

Independent Petroleum Association of New Mexico

Indiana Oil & Gas Association

Kansas Independent Oil & Gas Association

Kentucky Oil & Gas Association

Liaison Committee of Cooperating Oil & Gas Associations

Louisiana Oil & Gas Association

Mississippi Independent Producers & Royalty Owners Association

Nebraska Independent Oil & Gas Association

New Mexico Oil & Gas Association

Ohio Oil & Gas Association

Oklahoma Independent Petroleum Association

Pennsylvania Independent Oil & Gas Association

Permian Basin Petroleum Association

Petroleum Association of Wyoming

Southeastern Ohio Oil & Gas Association

Tennessee Oil & Gas Association

Texas Alliance of Energy Producers

Texas Independent Producers & Royalty Owners Association

Virginia Oil & Gas Association

Western Energy Alliance

With Technology To Succeed

Technology continues to open new horizons and plays across North America, starting with geophysics and continuing through the entire exploration, drilling and production cycle on into novel enhanced recovery techniques. Recognizing that technology is fundamental to success, *AOGR* editors coordinate input from guest authors who bring industry-leading technical expertise to every issue. Organized by monthly technical themes, feature articles translate the science of upstream technology into practical knowledge that readers can apply in their daily work flows. From chief executives to operations managers and field technicians, *AOGR* delivers the business, financial and technical information readers need to succeed.

AOGR Also Covers These National Associations And Professional Societies:

- America's Natural Gas Alliance
- American Association of Drilling Engineers
- American Exploration & Production Council
- American Gas Association
- American Petroleum Institute
- Association of Energy Service Companies
- Independent Petroleum Association of America
- International Association of Drilling Contractors
- International Association of Geophysical Contractors
- Interstate Oil & Gas Compact Commission
- National Oil Shale Association
- National Stripper Well Association
- Ocean Drilling Program
- Petroleum Equipment Suppliers Association
- Society of Exploration Geophysicists
- Society of Petroleum Engineers
- Society of Petrophysicists and Well Log Analysts

And AOGR Tracks Developments In Academia And R&D Organizations, Including:

- Advanced Energy Consortium, University of Texas at Austin
- Artificial Lift R&D Council
- Bureau of Economic Geology at the University of Texas
- The Center for Automated Seismic Processing, Texas A&M
- Center for Petroleum & Geosystems Engineering
- Colorado School of Mines/Reservoir Characterization Project
- DeepStar
- DOE's National Research Laboratories
- DOE's Rocky Mountain Oil Field Testing Center
- Engines & Energy Conversion Laboratory, Colorado State University
- Enhanced Oil & Gas Recovery Research Program
- Exploration Geophysics Laboratory, University of Texas at Austin
- Gas Technology Institute
- Institute of Reservoir Characterization, University of Oklahoma
- Multiphase Pump & Metering Roundtable, Texas A&M
- NASA Commercial Technology Network
- Offshore Technology Research Center
- Petroleum Technology Transfer Council
- Research Partnership to Secure Energy for America
- Reservoir Characterization & Modeling Laboratory, University of Colorado-Boulder
- Richard E. Smalley Institute for Nanoscale Science & Technology, Rice University
- Southwestern Petroleum Short Course, Texas Tech
- Stripper Well Consortium
- Subsea Engineering Research Group
- University of Tulsa Artificial Lift Project
