THE AMERICAN OIL & GAS REPORTER[®]

The American Oil & Gas Reporter's editorial integrity is respected the world over as being unique and original. Content sets the bar of editorial excellence with traditional journalism that readers and advertisers trust and respect. AOGR is designed for oil and gas producers and operators, their allied geophysical, drilling and well fracturing contractors, and the equipment manufacturing, service and supply firms that serve them. The "Better Business" publication of the industry, AOGR is especially tailored for U.S.-based independents.

Content reflects the interests of C-suite executives and operations managers in the legislative, regulatory, and financial market trends and developments that shape the economics of all operations. It also reflects their interests in new technology and its economic implications, as well as overall geophysical, geological and engineering innovations in the fields of exploration, drilling, completions and production of oil and gas, both as to methodology and equipment.

AOGR Also Works With These National Associations And Professional Societies:
